

How would you rate the study guide in terms of how thoroughly it covered the material of the class, in particular those which would get you ready for the final?	How would you rate the quality of the study guide, in terms of the questions it asked, and their worked out solutions?	How would you rate the usefulness of the online resources attached to the study guide?	How much would you say this study guide enhanced your readiness for the final?	Is there anything you would like to see added for future iterations of the study guide?
